

Reduce antibiotic use and increase profit ... strategies for successful beef farming

Join IfA's livestock team for an afternoon workshop discussing practical strategies to reduce antibiotic use on beef farms

16th November 2017, 13:00 - 15.00 pm
Lunch provided at 12.30pm

Venue: FFIT Building, Myerscough Lodge Farm, Myerscough College
St Michaels Road, Bilsborrow, Preston, PR3 0RT

Participants will go home ...

- better informed about reducing antibiotic use on beef farms
- with practical, time saving strategies to introduce on beef farms
- informed about the economic gains that can be made from reducing antibiotic use
- motivated to play our own parts in giving our children, and theirs, a realistic chance of avoiding the possibly fatal consequences of an antibiotic-resistant infection

Places are limited, so booking is essential

Book your place for £10 at:
