Reduce antibiotic use and increase profit ... strategies for successful sheep farming

Join IfA's livestock team for a morning workshop discussing practical strategies to reduce antibiotic use on sheep farms

16th November 2017, 10:00 - 12.00 noon

**Venue: FFIT Building, Myerscough Lodge Farm, Myerscough College
St Michaels Road, Bilsborrow, Preston, PR3 0RT**

Participants will go home ...

- **better informed about reducing antibiotic use on sheep farms**
- **with practical, time saving strategies to introduce on sheep farms**
- **informed about the economic gains that can be made from reducing antibiotic use**
- **motivated to play our own parts in giving our children, and theirs, a realistic chance of avoiding the possibly fatal consequences of an antibiotic-resistant infection**

Places are limited, so booking is essential
Lunch provided at 12 noon

Book your place for £10 at:
