

Strategies To Prevent Disease On Your Pig Farm By Having Strict Bio-Security & Hygiene Measures

24th May 2018, 10:00 – 14.00

Venue: Eastbrook Farm, Cues Lane, Bishopstone, Swindon, SN6 8PW

Experienced at talking with farmers; IfA's livestock team will be on-hand to explain to you, in plain terms, what antibiotic resistance actually means and why there is a demand on the industry to reduce the use of antibiotics in livestock.

We will highlight the reduction targets that have been set for the pig sector, and provide you with practical and achievable tips that can help to prevent disease, save time and money on your farm. There will also be a tour of the farm

This workshop will focus on three key areas:

Antibiotics

- The different classes of antibiotics and which ones are classified as critically important

Biosecurity

- Pig flow, water sanitation, disposal of dead animals etc

Pig Health

- How Helen Browning has managed to stamp out pig health problems

FREE to attend. Places are limited, so booking is essential.

Lunch provided at Helen Browning's Royal Oak Pub
