

**A clear solution
for farmers**

CATCHMENT SENSITIVE FARMING

INNOVATION *for* AGRICULTURE

You are invited to join CSF and IfA at this FREE event on:

Improving your soil organic matter

An interactive workshop on building soil organic matter for soil health and fertility with CSF & Innovation for Agriculture

28th January 2019, 10.30 to 3.30 pm

Overbury Village Hall, Gloucestershire, GL20 7NZ

Guest speakers include:

**Stephen Briggs and Joe Collins from
Innovation for Agriculture**

Topics will include:

- CSF and soil issues in the catchment.
- The basics of soils and improving soil organic matter, including cultivations, soil biology, physics and chemistry, organic matter impact on loss of nutrients and soil, and weed control.
- Increasing soil organic matter, including cover crops and green manures, compost, sewage sludge, biochar, incorporated straw, rotations and re-introducing livestock to the arable farm, and organic manures.

Booking is essential - Numbers are limited and places will be allocated on a first-come, first-served basis. Booking details will be taken by CSF and IfA via Eventbrite.

For further information contact Nicky Jameson 07774193225 or Geoff Newman 07771947126 or to book a place please click <https://gloucs28jan.eventbrite.co.uk>

Lunch will be provided. BASIS points available

Natural England takes looking after your data as seriously as we take looking after the environment. Your data is only used by us so we can email, call, write or text you about our Catchment Sensitive Farming work. This will include advice, access to grants, events and campaigns. We hope you want to hear from us but you can change your preferences or mind at any time by emailing us on: catchmentsensitivefarming@naturalengland.org.uk. For more information: <http://bit.ly/csfprivacy>. Natural England's Information Charter: <http://bit.ly/naturalenglandinfo>

Catchment Sensitive Farming (CSF) is delivered in partnership by Natural England, the Environment Agency and Defra.
