

**A clear solution
for farmers**

CATCHMENT SENSITIVE FARMING

INNOVATION for AGRICULTURE

You are invited to join a **FREE** event:

Improving your soil organic matter

An interactive workshop on building soil organic matter for soil health and fertility with CSF and Innovation for Agriculture

Tuesday 12th March 2019 – 10.30am-3.30pm

**Cheshire Wildlife Trust, Bickley Hall Farm,
Bickley, Malpas, Cheshire SY14 8EF**

Arrive at 10.15am for registration & refreshments

Guest speakers include:

**Stephen Briggs and Deborah Crossan from
Innovation for Agriculture**

Topics will include:

- CSF and soil issues in the catchment.
- The basics of soils and improving soil organic matter, including cultivations, soil biology, physics and chemistry, organic matter impact on loss of nutrients and soil, and weed control.
- Increasing soil organic matter, including cover crops and green manures, compost, sewage sludge, biochar, incorporated straw, rotations and re-introducing livestock to the arable farm, and organic manures.

Booking is essential - Numbers are limited and places will be allocated on a first-come, first-served basis.

For further information contact Dave Perry 0782 593 4726.

To book a place, please go to Eventbrite <https://cheshire12march.eventbrite.co.uk/>

Lunch will be provided. BASIS points available

Natural England takes looking after your data as seriously as we take looking after the environment. Your data is only used by us so we can email, call, write or text you about our Catchment Sensitive Farming work. This will include advice, access to grants, events and campaigns. We hope you want to hear from us but you can change your preferences or mind at any time by emailing us on: catchmentsensitivedfarming@naturalengland.org.uk.
